The Signature Collection

Introducing the Signature Collection...

The Huntington Homes Signature Collection is an elite suite of premium products, engineered to bring sophisticated style and superior performance to your home.

At Huntington Homes, we believe that for some, only the best will do. Our Signature Collection is a masterfully crafted range, selected not just for its stunning aesthetic, but for its enhanced construction, improved thermal efficiency, and high-end finish.

We have simplified the luxury market by offering this entire premium collection at a single, transparent price. For £1,300, we provide our most comprehensive service: from the supply of your high-performance door to a precision installation by our most experienced master-fitters.

This collection is designed for the homeowner who values the finer details. Whether you are looking to make a bold architectural statement or add a touch of timeless elegance to a traditional property, the Signature Collection is guaranteed to elevate the way you feel about your home.

To many, it's a simple upgrade. But at Huntington Homes, we know it's an investment in your home's security, warmth, and kerb appeal. With one fixed price, no hidden extras, and our highest standard of fitting included, luxury is now simpler than ever.

Exquisitely designed, high-performance and professionally fitted by Huntington Homes.

18 stunning colours available, in any combination inside and out, there is an option for everyone.

With thirteen different patterns to choose from, there is always a style to suit.

Specification

Why Choose Comp Door?

The New Standard in Composite Technology.

At Huntington Homes, we only use Comp Door for our Signature Range because it represents the pinnacle of British engineering. While standard composite doors can be prone to warping or heat loss, Comp Door is designed to outperform the competition in every category:

Maximum Security: Every door is fitted with the Kubo high-security lock, a multi-point system designed for smooth operation and ironclad protection.

A "Solid" Foundation: Built with a 48mm cross-laminated timber core, these doors feel heavier, sound quieter, and provide vastly superior thermal insulation compared to foam-filled alternatives.

Anti-Warp Engineering: Using advanced CoolSkin technology, your door is protected against the elements. It won't bow, twist, or fade, ensuring a perfect seal and a vibrant finish for decades.

Invisible Seal Technology: Our unique invisible gasket design removes unsightly black rubber edges, giving you a cleaner, sleeker look with the highest weather-performance rating on the market.

Beautifully finished. Better protected. Built to last.

Complete Security

Active Snap Protection

When attacked, a hidden pin within the hardened Molybdenum cam fires into action to create a barrier that would-be intruders can't get past.

Multi-Layered Protection

ABS cylinders feature advanced technology to combat against snapping, picking, drilling and bumping.

Tried & Tested

ABS 3 star rated cylinders are approved by the Police Security Association, passing with the Sold Secure Diamond grade recognised as the highest security standard UK locks can conform to.

Lock Positioning

Standard Auto-Fire Lock

An automatic multi-point locking system featuring a three self-locking deadbolt latch to provide additional security.

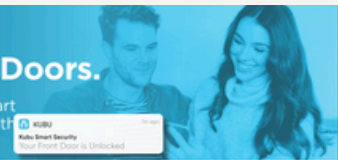

Heritage Auto-Fire Lock

The aesti of a tradi rim latch positionir but incorpore the latest high sec auto-fire technolo;

Be Sure You're Secure, with our Fully Alarmed Doors.

Every Comp Door comes fitted with Kubo Smart Security sensors as standard, providing you with ultimate peace-of-mind.

Smart Technology As Standard

Kubo is an **Intelligent Alerting System** that monitors the security status of your door in real time - sending a notification to your Smart device if there is anything to worry about.

By seamlessly integrating with the locking hardware in your Comp Door, the Kubo sensor can tell if your door has been: **opened, closed, deadlocked, or even if it is under attack.**

Unlike most other systems, Kubo can alert you to threats before an intruder can breach your home, giving you an early warning and helping to **keep your home & family safe.**

Kubo integrates easily with other smart-home devices like speakers, heating, and lighting - making your entire home **smarter and more secure.**

If that's not enough, Kubo also **ensures peace of mind** by notifying you if you've forgotten to lock your door when you leave, can send scheduled alerts - like at bedtime - about your door's status, and even allows you to share updates with loved ones.

And best of all, Kubo is included for FREE with every door purchased from Comp Door.
